

SUMMARY

- Web Security Intern at Viettel Cyber Security in 2026
- Software Engineer Intern at Viettel Telecom - Viettel Digital Talent 2025
- Second prize in National Informatics of Olympiad for High school students in 2023
- Experience with C++, Java, Python, PHP, Java Spring Boot, Database, Burp Suite, CTF.

EDUCATION

- **University of Engineering and Technology - VNU** Sep. 2023 – Jun. 2027 (Expected)
 - Student of Information and Technology; Current GPA: 3.71/4.00; Grade: **High distinction**

EXPERIENCE

- **Viettel Telecom (VTT)** Apr. 2025 – Oct. 2025
 - *Software Engineer Intern - Viettel Digital Talents 2025*
 - Implemented notification backend system in TV360.
 - Language/Technology: **Java Spring Boot & Database.**
- **Viettel Cyber Security (VCS)** Feb. 2026 – Present
 - *Web Security Intern - Red Team - VCS Passport 2026*
 - Learned fundamental knowledge and technical skill of Cyber Security.
 - Experience of Capture The Flag (CTF).
 - Language/Technology: **Burp Suite.**

ACHIEVEMENTS AND AWARDS

- **Second prize in National Informatics of Olympiad for High school students** 2023
 - Competed individually in 2 days to solve problems about algorithmic problems in 3 hours.
- **International Collegiate Programming Contest (ICPC) Regional Contests** 2025
 - Competed in a team of three to solve 10–13 algorithmic problems in 5 hours using C++ & Java.
 - **54th Place** in Ho Chi Minh ICPC Asia Regional Contest.
- **International Collegiate Programming Contest (ICPC) National Contests** 2023, 2024
 - Competed in a team of three to solve 10–13 algorithmic problems in 5 hours using C++ & Java.
 - **3rd Place** in Vietnam National ICPC Contest in 2023.
 - **3rd Place** in Vietnam National ICPC Contest in 2024.
- **Viettel Programming Challenge (VPC)** 2025
 - Competed in a team of three to solve 10–13 algorithmic problems in 5 hours using C++ & Java.
 - **3rd Place** in Viettel Programming Challenge in 2025.
- **Gold medalist at International Olympiad in Informatics for High school students** 2022
 - Competed individually in 2 days to solve 3 algorithmic problems in 5 hours on each day.

ACTIVITIES

- **Member of book writing team for Secondary Students Of Informatics** Dec. 2024 – May. 2025
 - Contributed to the development of a book for secondary school students preparing for Informatics Gifted High School entrance Exams.
